

K-LOVE impacts me within my local community by keeping me informed on local events that would be beneficial to me and my family. K-LOVE also provides my community with positive and encouraging music that is suitable for all members of my family (no censoring needed!). Our local community would be effected by the removal of K-LOVE by the absense of a family-friendly radio station (again, no censoring of music or disk-jockey's comments needed on K-LOVE). K-LOVE benefits our public interest by focusing on the positive, optimistic side of life, instead of the negative, cynical view most other radio stations maintain. K-LOVE is never crude, obscene or slanderous to anyone or anything. My community would be negatively impacted if K-LOVE was removed from the airwaves.
